

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Gift of
John W. Quincy,
of New York.

Entered according to Act of Congress, in the year 1860, by

S. FRENCH, L. C. PRATT, H. L. PRATT, J. B. HENSHAW.

in the Clerk's Office of the District Court of the United States, for the Southern District of New York.

S. W. BENEDICT, STEREOTYPY AND PRINTER,
16 Spruce Street, New York.

PUBLISHERS' NOTICE.

BELIEVING as we did, that the business interests of New York demanded the publication of a work which would show at once its Mercantile, Manufacturing and Commercial resources, and present to business men, through each City, Town and Village, a medium of acquaintance with each other, we were induced to undertake the preparation and publication of the present volume. As we have progressed with the work, the universal approbation and support which it has received from an intelligent public, through every portion of the State, has confirmed us in the belief that we had correctly divined their wants.

In accordance with our plan, we have made a new Map of New York City, also one for the State, on which every Town in its appropriate County is laid down by number, which, taken in connection with the alphabetical list of Towns and their numbers, will be found more convenient, accurate and recent than any now in use. Our alphabetical List of Towns and Post Villages, it will be observed, makes what has been so much needed, a complete Post Office Directory for the State, as in every instance where the postmaster's name stands against any Town or Village, it indicates that a Post Office is located there. It will be observed by referring to the list, that there are very many Towns that contain no Post Office by the same name, and also that there are many important Villages, and some Cities, embraced in the limits of almost unheard-of Towns. This may, at first, cause some perplexity, as in the body of the work the arrangement is alphabetical by Towns. The difficulty may, however, be removed by observing in the list the name of the Town standing against each Village.

Other plans of arrangement will doubtless suggest themselves, as being preferable to the one which we have adopted, but we think, on reflection, it will be conceded, that its convenience as a reference book has been promoted by the present arrangement.

For the benefit of professional men and others who may be interested in that department, we have appended a Statistical Register, which, however, may not be as full as some works which have been published, giving statistical matters only; but, we trust, sufficiently so for all practical purposes.

To obtain our information, it was found necessary to canvass the State. To do this, experienced and trusty men were employed to visit each County and obtain the required lists. Owing to the fact that the State was canvassed by so many different men, each in a measure depending on his own judgment what items to record, it may be found that some branches of business are represented in a part of the counties and omitted in the rest, but the instructions being in the main the same, the business is as uniformly and fully represented as business purposes may require.

That it is difficult to make the orthography of proper names, and all other matters which compose a Directory, perfectly accurate, the experience of all Directory Publishers goes to prove, and as the errors usually lie on the surface, it is very natural that they should be criticized before the truths are appreciated. The present work may not be entirely free from unavoidable errors and omissions, but we cherish the belief, from the great care and labor bestowed upon its compilation, that it will be found a full and reliable source of present and future reference.

Buffalo Savings Bank.—Russell H. Heywood, President, Robert Pomeroy, Secretary. Business hours from 9 to 12 A.M. & 2 to 4 P.M.—Office, Buffalo Bank Buildings, Main st. *Buffalo*.

LIST OF TOWNS AND POST VILLAGES

EXPLANATIONS.—The first column gives a list of Towns and Post Villages. The figures following each town indicate said town in its appropriate County on the map. Post Villages are located in the town that immediately follows them. Counties are printed in Italics. The last column contains a list of Post Masters. Towns with no Post Master against them are not Post Towns. County Seats are printed in small caps.

KUMBEL'S PATENT MACHINE-STRETCHED LEATHER BANDING.

THE ONLY PATENTED BAND IN THE UNITED STATES.

Triumphant over all opposition this article has once more received the highest of all premiums, the *Gold Medal*, at the Fair of the "American Institute," in October, 1849. Awarded upon mature consideration, and severe test (in competition), of the superiority and originality of their principles of construction; thus recognizing after *thorough practical and public trial*, that rank and position which the manufacturing community has long since assigned it as the

Best Leather Band Manufactured in the United States.

This banding is made of the solid part only of the *best Oak Leather*, is thoroughly stretched, cemented and riveted, will run straight and has a perfect bearing upon the pulleys.

From the superior mode of its manufacture it possesses remarkable *Strength and Durability*, beyond any banding manufactured. It also excels in its running qualities any band made upon other principles or of other materials.

The Belt made of Leather is the only one that can be relied upon to perform well in all situations.

It neither melts with friction, sticks to the pulleys, nor frets into shreds; nor is it subject to sudden combustion and destruction; all which are marked characteristics of Beltings made from Gums.

The *Patent Machine-stretched Leather Banding*, as made by the Subscriber, will stand more heat, more cold, more friction, and is far more durable than those above referred to; and for all practical purposes, it can also be made water proof.

The best evidence of its quality is its adoption by nearly all extensive Manufacturers and Machinists throughout the city and country, the River and Sound steamers, and (with marked approbation) by the various lines of Ocean steamers. Since its introduction by the subscriber, it has revolutionized machinery to the general exclusion of gearing; and the approval of *practical mechanics* is further emphatically expressed by the steady increase in the demand for it from year to year. Every Belt is warranted to possess all the qualities requisite for durability and good performance, or the money returned.

They can be furnished of any length and width from 1 to 24 inches, either single, double, or round. Also superior Lace Leather, with rivets, burrs, punches, sets, &c.

WILLIAM KUMBEL, Original Inventor & Manufacturer,
33 Ferry street, New York.

DESCRIPTION OF STREVER'S FORCE PUMPS.

The two-inch Cylinder Pumps will discharge from 15 to 20 gallons per minute, and force it from 20 to 40 feet. These are calculated for Dwelling Houses, Garden Engines, and family purposes.

The three-inch Cylinder will discharge from 20 to 30 gallons per minute, and force it from 50 to 75 feet. This size discharges one and a quarter inch stream of water. These pumps can be used with equal effect with hot liquids.

The four-inch Cylinder will discharge from 40 to 60 gallons per minute, and force it from 75 to 125 feet. This size discharges a two-inch stream of water and can be worked with man, horse, water or steam power. Stroke of piston from 3 to 8 inches.

The six-inch Cylinder will discharge a three and a half inch stream of water. This size is admirably adapted for Fire-Engines, and can be worked from 4 to 10 inch stroke of piston.

The eight-inch Cylinder will discharge a four and a half inch stream of water, and is calculated to pump about 200 gallons per minute, and can be worked with horse, water, or steam power. Stroke of piston from 6 to 13 inches.

☞ These Pumps have been tested and give general satisfaction.

MANUFACTURED AND FOR SALE BY

J. H. STREVER,

120 Fulton st. near Nassau, New York.

W. LATTING'S
HYDRAULIC DEPOT,
OR
OFFICE OF THE TUBULAR FILTER,
No. 149 FULTON STREET, NEW YORK.

WHERE also is kept on hand almost every article connected with the use of Water, such as Coolers and Jars, with or without Filters attached, suitable for Ships, Steamboats, or Offices, Hose of all kinds, Hose-pipes, Jets, Fountains, Garden Sprinklers, Pumps of all descriptions, Refrigerators, Safes, &c. &c. Large Filters adapted to Manufactories and Steamboats, and for filtering Cane Juice on Sugar Plantations, on hand or made to order.

N. B.—The TUBULAR FILTER received the *highest* premium at the last Fair of the American Institute, and is now in successful and satisfactory operation in every City of the Union, particularly on the Ohio and Mississippi Waters, where no other Filter has been found to answer the purpose.

JAMES L. DAYTON,
MANUFACTURER AND WHOLESALE DEALER
IN
SHIRTS AND DRAWERS.

THE Subscriber, having already the confidence and patronage of a large Country Trade, would respectfully solicit a call from every Merchant visiting the City, for the purpose of purchasing a Stock of Shirts and Drawers, pledging to furnish a good ARTICLE at the *lowest market price*. He has the name, and is justly entitled to it, of selling his Goods some 5 per cent. less than other manufacturers. Colored Shirts of every description.—Orders promptly filled.—Please address

JAMES L. DAYTON,
Corner of 24th Street and 7th Avenue, NEW YORK.

720 BROADWAY,
UP TOWN CASH TAILORING ESTABLISHMENT.

The Subscriber respectfully calls the attention of his Friends and the Public to his
SPRING STOCK OF GOODS,

Selected with great care from the most extensive Manufacturers.

THE Subscriber would particularly call the attention of Gentlemen (that have not as yet visited his Establishment) to his peculiar style of cutting Garments, durability of Material, and style of Workmanship, which he feels confident cannot be surpassed by any house in the City.

Persons visiting New York from the Country Districts are solicited to call and examine his varied and well-selected Stock of Spring, Summer, and Fall Goods, which he has always on hand, and which he intends to dispose of on moderate terms.

J. H. CRONEY.

Remember 720 Broadway,
Opposite New York Hotel.

General Furnishing Hardware, Cutlery, Edge Tools, &c.

CHARLES S. LITTLE,

SUCCESSOR TO

OSBORN & LITTLE,

(CHARLES OSBORN having deceased, Sept. 14, 1846.)

IMPORTER AND GENERAL DEALER IN

ENGLISH, GERMAN AND AMERICAN

HARDWARE, CUTLERY, &c.

No. 33 Fulton Street, New York.

The Old Stand—opposite the U. S. Hotel, (where the Business has been carried on for eighty years past.)

Hardware, Cutlery, Nails, Locks, Latches, Butts, Screws, Anvils, Vices, Saws, Files, Shovels and Spades, Hollow Ware, Corn and Coffee Mills, Bells, Skates, Guns and Pistols, Rivets, Pumps, Curriers' Hones, Crucibles, Black Lead, Pots, &c.

ALSO GENUINE HAARLEM OIL.

American COOPERS, CARPENTERS, and MILLWRIGHTS' Edge Tools, of ALBERTSON'S, CONGER'S, BARTON'S, (Rochester,) HORTON'S, GIFFORD'S, and other makers. Also Coopers' Truss Hoops, and Coachmakers' Tools. AMES' Pump Augers and Rimmers.

BOOK & JOB PRINTING.

The Publisher of the Independent has an extensive
Book and Job Printing Office,

201 William Street.

Recently furnished with new Type for Letter-Press, and Stereotype Printing, and will be happy to receive orders from his friends for work in any branch of his profession.

Authors, or Publishers, in distant parts of the country, may send us their manuscripts for printing, with the assurance that they will be got up with as much care, dispatch, and accuracy, as if they were on the spot to superintend their publication. Should clergymen, or any of our friends abroad, wish to know the cost of any kind of printing, we will cheerfully make the necessary estimate for them without charge, on their furnishing us with the number of lines of their manuscript, and informing us of the kind of type and paper they wish used.

Address

S. W. BENEDICT, 201 William Street, N. Y.

CONNERS'

United States Type Foundry, New York.

THE subscribers beg respectfully to announce, that they have always on hand an excellent and varied assortment of **BOOK, NEWSPAPER and Ornamental Type, Bordering, &c.**

Their series of **SCOTCH FACES**, so much admired for their beauty and finish, they feel assured cannot be excelled. For **NEWSPAPERS** especially, experience has proved that notwithstanding continual and constant use, they have been found to "wear well."

Presses, Wood Type, Cases, &c., with every article necessary for a complete **PRINTING OFFICE** are always on hand.

JAMES CONNER & SON,

Corner of Ann & Nassau Sts.

N. B.—A New Specimen Book, embodying the latest additions, is now ready for issue.

THOMAS WARRIN,

MANUFACTURER AND IMPORTER OF **J. WARRIN'S**

CELEBRATED NEEDLES, FISH HOOKS, FISHING APPARATUS,

DRILLED-EYED AND COMMON NEEDLES OF ALL QUALITIES,

RAZORS, SCISSORS, STEEL PENS, PEARL BUTTONS,

SUPERIOR TABLE AND OTHER FINE CUTLERY, FOWLING PIECES, GUNS, &c.

48 Maiden Lane, N. Y.

CAUTION.

J. WARRIN'S Needles having received the approval of the public for upwards of twenty years, some unprincipled dealers have, in consequence of their great celebrity, imitated his labels, and put them upon inferior low-priced Needles. The counterfeit label imitates the genuine one in its general appearance, and reads: **Manufactured for J. Warren, Redditch.** On the genuine **WARRIN** is spelt with an *i* (not *e*) and reads: **Manufactured by (not for) J. Warrin, Redditch.** In addition to the *gilt* label on the genuine Warrin Needles, they have a small *green* label on the tack, or shorter fold of the paper, which reads: **Manufactured and warranted by J. Warrin, Eagle Mills, Redditch.** J. W. puts his name only upon the finest quality of Spring Steel Needles.

⚠ Dealers are cautioned against vending Needles counterfeiting the Trade marks of the subscriber.
J. WARRIN, Redditch, England.

BARRON BROTHERS, PORTABLE BLAST FURNACE.

THIS Furnace is arranged on such scientific principles, that all metals are melted by it at a less expense of time and fuel than by any other furnace.

The proprietors received the *Gold Medal* for its exhibition at the last Fair of the American Institute.

The principal *Jewelers of New York City* have adopted it as the best and cheapest in the market.

The proprietors, therefore, feel assured that any operators in metals who will try it will be satisfied with its results, and merchants connected with the California trade will find it the most saleable article they can export.

Gold, silver and copper can be melted by it in less than ten minutes. No. 1 size will melt from 4 to 13 ounces of gold with less than one quart of coal. No. 2 will melt from 50 to 100 ounces with two quarts of coal. Nos. 3 and 4 from 100 to 500 ounces.

It requires no fixtures or appendages of pipe or flue, but can be used on a table with no other blast than a small size common hand-bellows—for No. 1 the blast from a blow-pipe even is sufficient.

TO BE HAD OF BARRON BROTHERS,

222 Broadway, New York.

The price complete is \$6.00 or upward according to size.

WHO INVENTED
THE WALNUT OIL
MILITARY SHAVING SOAP?

Merchants and Traders must observe, in order to avoid Imposition, and Trickery, by a number of Manufacturers of a Spurious Article, which is palmed off as the Genuine. The following Card will satisfy any Inquirer :

~~~~~  
**A C A R D.**  
~~~~~

In order to establish the priority of my invention, and exhibit in suitable colors the several *genii* who trespass upon my prerogative, and in the vain attempt to find shelter under a mass of open violation of truth, only multiply the truth against themselves.

My first impressions respecting the WALNUT OIL SOAP, were from the celebrated Dr. Reese, Medical Hall, Piccadilly, London; and more fully matured by the aid of an officer of the highest rank in the French army, a proficient in Chemistry.

In 1844, I was manufacturing Soaps and Perfumery, when I associated myself with P. D. Vroom, whose previous occupation had been Superintendent at the Blind Asylum; consequently, he knew nothing of the business in which I was engaged. The WALNUT OIL SOAP *was then in preparation, and was peculiarly my own*; to establish which fact, I refer to Moore & Taylor, 81 Maiden Lane, who were my associates in business, at 79 Trinity Place, previous to my knowledge of Mr. Vroom—and as a further vindication of the justice of my claim, the establishing of my right, and the total refutation of Mr. Vroom's egregious pretence to the invention, allow me to state, that the Label first got up for the article, was used to a great extent, and read as follows: "JOHNSON'S Walnut Oil Soap, 79 Trinity Place, New York;" and for confirmation of this fact, I refer to W. J. Spence, printer, 194 Fulton street, who has the plate.

Another self-styled inventor, is George Banham, who was in the employ of Messrs. Johnson and Vroom; but during his residence with us, always had the Soap in preparation, mixed in barrels by myself, previous to finishing; to establish this fact, I refer to P. D. Vroom.

Another pretender, of the name of Gale, endeavored to purchase information from one of my workmen by the bribe of a watch. (This was before he commenced to invent the Soap.) There are other *small original Inventors*, which it is necessary the public should guard against. If they want a truly good article, mine is the only one; and it is admitted, that since the first discovery of Soap Making by the Phenicians, none has ever added such a laurel to the Savonic art as myself.

So far, so good. It now only remains for me to guard purchasers against a glaring counterfeit of my Soap, sold by a miserable looking man by the name of Brownell, who sells it at auction under the name of M. Johnson, bearing my address. There is no such person. It is a gross fraud. Several respectable houses have been deceived by Brownell, and have discontinued selling it. Some others, if they continue to *represent it as mine*, render themselves liable to heavy damages, which will be vigorously pursued.

Any other impositions, bearing the name of Walnut Oil, except those which bear my fac simile on each cartoon, are counterfeits of the deepest die

In order to put an end to the various controversies, I have invented

AN ENTIRE NEW ARTICLE, CALLED

JOHNSON'S MYRTLE SOAP,

The best in use, to which approved excellence, I have the highest testimonials. Also, CHRYSTALINE WASH BALLS, LAUNDRY STARCH POLISH, and every description of FANCY SOAPS.

WM. JOHNSON, ARTISTE IN SOAPS,

Soap Works, 55 Frankfort Street, New York

COPAL VARNISH---IMPROVED.

TURNER & COMPANY,
MANUFACTURERS AND DEALERS IN
ALL KINDS OF VARNISH,
CLARKSTOWN, ROCKLAND CO.,

One and a half miles North of the N. Y. and Erie Railroad Depot

THE Subscribers, through the medium of their Circular for the ensuing year, take the liberty of introducing to the consumers and dealers in general an article of COPAL VARNISH manufactured entirely different from that which is made up in the old way—possessing, in addition to all the good qualities of varnish heretofore manufactured, the property of drying quick without the assistance of sun, leaving a smooth, tough and brilliant surface, and embracing many other valuable properties that the consumer will, on trial, be satisfied with.

THEY KEEP CONSTANTLY ON HAND THE FOLLOWING VARIETIES—

BEST PALE COACH, OR PICTURE VARNISH.

A splendid article, intended for extra light work.

BEST BODY COPAL VARNISH.

For Coach Makers, &c.

A superior article. This is intended expressly for the body parts of Coaches, and other similar vehicles, intended for polishing.

QUICK-DRYING BODY COPAL VARNISH.

For Coach Makers, &c.

A very good article, and very useful for varnishing old work on dark colors, &c.

SECOND CARRIAGE VARNISH.

An excellent article, intended for the varnishing of the wheels, springs, and carriage parts of coaches, chaises, &c.; it is also that description of Varnish which is generally used by House Painters, Decorators, &c., as from its drying qualities and strong gloss, it suits their general purposes well.

FURNITURE PICTURE VARNISH.

intended for extra light work, gilt looking-glasses, picture frames, &c.

SMOOTH COATING, OR FLOWING VARNISH.

A magnificent article for flowing and finishing coats.

NO. ONE QUICK-DRYING & POLISHING FURNITURE VARNISH.

A splendid article for Piano, Cabinet, and Chair Makers; will rub and polish very brilliant.

NO. TWO QUICK-DRYING & POLISHING FURNITURE VARNISH.

A very good article for common furniture; will dry and polish well; also intended for chairs, and chair painting.

SCRAPING, PAINTERS, MAP & PICTURE VARNISH. BROWN JAPAN.

A sure dryer in all weather, for painters' use. Also for japanning tin ware, and plates for tin signs.

NO. ONE BRUNSWICK BLACK.

An article suitable for blacking the iron-work of coaches and carriages, tools, scythes, iron railing, stoves, tin, zinc, &c., dries quick and hard, will stand the weather, preventing rust, leave a smooth splendid gloss, equal to a coach body, and will stand one year.

NO. TWO BRUNSWICK BLACK.

This article is intended for engineers, founders, iron-mongers, &c.; it will dry in half an hour.

In presenting the above variety of Varnishes for trial, the subscribers are sensibly aware of the many difficulties they will have to encounter from prejudice, owing in a measure to inferior qualities that are daily offered: but trusting to the experience they have had in the chemical branches, they are confident a decided improvement has been made in the article of Varnish manufactured by them, and once made a trial of, will be fully appreciated, creating confidence, and at the same time establish their article on a sound and safe celebrity.

☞ All Varnishes of our manufacture, if not approved of as recommended, can be returned, and the expenses liquidated by us. All varnishes should be laid on in a warm room, the temperature ranging from 70 to 80° Fahrenheit, and not exposed to damp or cold weather until nearly dry.

☞ Druggists and Shippers supplied at the lowest rate and on liberal terms. All communications through the Post Office will be thankfully received and punctually attended to, by addressing
